VIEWS

IN THE LIGHT of the doings of the 35th legislative assembly the southern part of the territory have reason to be proud of the men who represented them, and none of these more than R. M. Turner, of Grant county, who was prompt and fearless in defending the rights of his constituents and protecting the interests of the territory. Such men should not be forgotten by the people now that their work in that line is finished for this time.

THE PRESIDENT of the national colony and sanitarium for consumptives, with a committee of arrangements, is to visit Deming about the 20th. It is needless to say that these gentlemen will meet with a most cordial reception. They will be our guests, and if they don't see what they want they will only have to ask for it and it will be forthcoming. We are all looking forward to their visit with a great deal of interest and pleasure. In fact, there is nothing small about our people but their income, and even that is better than many other places of greater pretensions.

CONGRESSMAN W. R. HEARST, of New York, owner of the New York Journal, the Chicago American and the San Francisco Examiner, is soon coming this way with a party of democratic congressman and leaders who are traveling at his expense and who will make a tour through the territories of New Mexico, Oklahoma and Arizona. Mr. Hearst will be very welcome here and it is hoped that he will spend lots of money while in New Mexico. One of the things this territory needs very much is more capital. Mr. Hearst has plenty of money and the more he invests in New Mexico, the better it will please the people.

EVERY TIME THE death penalty is inflicted the question is again brought before the people as to whether the law in this regard is a good one or not. The spirit of our institutions is opposed to the infliction of such extreme punishment, and the majority of people are more or less against it. We are not prepared to say the law should not exist, but we do believe that very law has been the means of releasing criminals many times when the evidence of guilt was conclusive. The average man would hardly refuse to act on a jury because he does not believe in the extreme penalty; yet, when he comes to act on the cause he will hesitate, if he has any heart at all, before rendering a verdict that will take a human life. It is a growing belief among the people that the abolishment of the death penalty would aid in bringing about the conviction and sentence of criminals in our courts.

LAST WEEK WE published an article in regard to the benefit to be derived from a grove of trees as a wind break on the west side of our town, and the ease with which such a grove could be secured; this article has caused more or less comment, and, while acknowledging the benefit such a grove would be, some have raised the question of how to secure water for the trees. We know that trees require a great deal of water when first getting rooted after which time they will stand a long drouth without injury; we have also considered carefully the question of getting water for the grove in question, and from the information we have been able to secure we are certain there would be no trouble in getting an abundance of it at comparatively little expense. It is a regular thing for large quantities of water to run away from the Mimbres valley every year during the rainy season and this, if saved, would furnish, not only water for the grove of trees mentioned, but for a large amount of farming land as well. Nature does not leave man to devise means for utilizing her forces without providing a way for his doing so, and when he fails to see this provision she will frequently point to it with unmistakable signs of her own. In the matter of water for the country west of Deming this was done in such a forcible manner that some, at least, of our citizens will not soon forget it. At Graham's ranch two and one half miles northwest of our town there is a small ditch leading out from the river through a sag in the hills toward the great meadow which extends for miles to the west and south of us forming one of the immense hay producing regions for which the country is noted. A few years ago during a rise in the river the water broke over this sag and formed a big channel through which it poured, forming a lake miles in extent and washing out several stretches of the Southern Pacific track, proving the ease with which the water could be conducted from this point to the lands along the western border of the town, and with small expense conserved in reservoirs for irrigation purposes. The cost of building a reservoir here could be secured by the people of our town and within a few years the region spoken of would be a thickly settled farming country.

A Remarkable Case.

One of the best of remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fennel, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 145 to 110 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." J. P. Byron & Son.

What's In a Name.

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt's Co., of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases, DeWitt's salve has no equal. This is given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. J. P. Byron & Son.

The Stomach is the Man.

A weak stomach weakens the man because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodol Dyspepsia cure cleanses, purifies, sweetens and strengthens the membranes of the stomach and cures indigestion, dyspepsia and all stomach troubles. J. P. Byron & Son.

Woman's Duties.

A woman who keeps her house in order and has the care of a family, has just as much responsibility as the man who provides the means to carry on the housekeeping. She is deserving of the more credit since the demand of her strength is greater. The everlasting sameness about her duties, and the confinement necessary to carry them out is very trying to the nervous system. This produces a strain on the mind that makes irritable, cross and dissatisfied, which is just as much a disease as rheumatism or catarrh. If the nerves can be built up and made strong by medicine of some kind, this feeling is changed to one of cheerfulness and pleasure in her duties. The medicine that makes strong healthy nerves, and prevents disease by building up the entire system is Dr. Gunn's Blood and Nerve Tonic, a tablet to take at meal time. Cures nervous prostration by making rich red blood, feeding the nerves and making solid flesh at the rate of one to three pounds per week. The medicine is sold by druggists for 75c per box, or 3 boxes for \$2, or sent by mail post paid upon receipt of price. Write us about your care. Address Dr. Gunn's Med. Co., Philadelphia, Pa. For sale by J. P. Byron & Son.
